Course Director Welcome Message

Dearest colleagues and friends,

as Course Director, on behalf of the EMDM Strategic

TEACH TO HELP
The management of the health impact of a disaster is one of the most difficult tasks to be performed by health workers. It requires specific knowledge and scientific evidence.

Course Director Welcome Message

Dearest colleagues and friends,
as Course Director, on behalf of the EMDM Strategic Management Board, the Research Center of Emergency and Disaster Medicine (CRIMEDIM), in Novara, Italy, and the Research Center of Disaster Medicine at the VUB, Brussels, Belgium (REGEDIM) and the whole Faculty, I am really happy to welcome you in the EMDM world!

As it happens every year, this starting message gives me a mix of feelings: happiness and pride (to have been able to start it again), worries (will it be better or worse than the previous editions?), enthusiasm (any start is usually more attractive and appealing). Every year we introduce new tools, new Faculty members, new exercises we have not experienced before; these will give us a certain anxiety about the future results. But, as usual, we try to be "positive".

This will be the XVII Edition (if we include also the first two when the EMDM was not a University-based, diploma delivering program) but the XV if we count the editions from the first DIPLOMA (MSc DM) releasing course in 2003-2004.

What's new for the current XV Edition?
