web 2.0

- commercial fraud or the new paradigm?
- what does it mean for the humanities?

RONCAGLIA – NUOVO WEB E NETWORK DI RICERCA IN CAMPO
UMANISTICO

Web 2.0 in eight key concepts

1. User Generated Content (UGC)
2. semantics
 - formal ontologies
 - social tagging
3. collaborative filtering
4. RSS feeds
5. embedding, reuse, mash-up
6. social networks
7. page interaction (Ajax, WebApps, widgets)
8. interface design

Web 2.0 in eight key concepts

social networks

- the killing application of web 2.0
- 2/3 of the world on-line population use social network or blogging tools
- already in 2007, 97% of US on-line population aged 9-17 was using social network tools
- social networks are today more popular than e-mail
- humanities and social networks

Network Humanitatis

linguaggi, risorse, persone

a social network page

- should not be a 'placeholder'
- its primary goal is to dynamically aggregate relevant information
- well-chosen widgets and applications might actually be useful!

sidfield wrote on John's wall.
I first came to know John when he joined our unit in Ft Devens MA. The 431st Inf of the 16th Light Infantry Brigade. We went to Vietnam together and I was with him the night he lost his life. John was a wonderful person and a wonderful friend to me. I have really never gotten over his loss and still proudly remember him and our friendship.
Sid Field (Then Lt in the 431st Tay Ninh Vietnam)

kharrington wrote on John's wall.
It was once long ago, on a sunny day, that I visited my father's uncle, "Buddy" Harrington in Durham, N.C. As a young child, I can remember his home even to this day that his own son, John Milton ran and not know John Milton.
You see, John Milton died in service was even born, but on that bright, as gregarious and energetic as I am
